

DOM POLAND PREMIUM VODKA

DOM Vodka is a unique and true artisanal vodka made in the heart of Poland. Our family has been making spirits for several generations in the beautiful and historic Greater Poland region. Artisanship is deeply rooted in the proud traditions of the region.

The premium grain is some of the best in Poland and sourced only from families with whom we have been working for generations. Only the most pure water is used. DOM means “Home” in Polish and our Vodka is unique expression of what a Premium Small Batch Vodka from Poland is meant to be. DOM is distilled six times to be pure and clean while still retain character and personality. It is finally carefully filtered six times and allowed to rest for weeks before bottling.

DOM is a refined, pure and sophisticated Vodka but subtle, with its character and elegance enhancing the Vodka's sexy smoothness and complexity. Full bodied, with a round mouthfeel and a long finish it can be enjoyed neat or it can be a great companion to any cocktail.
